Biographical Information:

Stephanie M. Taylor, Ph.D., is currently a Dean's Fellow (essentially a teaching postdoctoral fellow) at the University of Texas at Dallas in the Department of Science and Mathematics Education. She has been active in small ways in the DFW local section since she moved to Dallas two years ago, running the National Chemistry Week Poetry Contest, attending meetings and assisting with booking rooms for DFW Section Executive Committee meetings. She was also active in the Central Texas Local Section during her graduate school years in Austin, co-coordinating Earth Day and National Chemistry Week Celebrations as well as Co-Chairing the Undergraduate Programming for the South-West Regional Meeting held in Austin in 2011. Stephanie is interested in continuing and expanding her involvement in the DFW local section, and running for Alternate Councilor is a sensible next step.
